DETAILED ACTION***Information Disclosure Statement***

1. The information disclosure statement filed 8 March 2005 (i.e., the "Japanese office action") fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because no form 1449 or its equivalent was filed. The information has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

Double Patenting

2. The **nonstatutory double patenting** rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b). Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 2-70 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-69, respectively, of patent US006725203B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because each instant claim is (e.g., claim 2) is the corresponding claim in the '203

patent (claim 1) with "flipping pages" (at the end of the claim) replaced by "a plurality of pages simultaneously flipping as a group or individually". The new limitation is obvious because said pages must either be flipping individually or as a group; no other alternatives are possible.
